MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Breakfast Meeting with Secretary Weinberger and Deputy
Secretary Carlucci, 5 March 1982

1. I have been informed that Defense plans to raise the following issues at tomorrow morning's breakfast.

- OSD Representation on the NFIC. OSD has apparently decided to request that, in addition to General Stilwell, Don Latham, Deputy Under Secretary for C³I, be allowed to represent OSD when resource questions are being addressed. You will recall that this had been proposed for last week's meeting but was dropped at the last minute because of the lack of consensus in OSD. To restate [redacted] position, we ought to adhere to the policy of allowing one representative from the policy agencies. We should not proliferate the number of policy agency representatives. In the most recent announcement of the mission and functions of the NFIC, issued by you in January, you indicated there would be a single representative of the Secretary of Defense. [redacted] suggests that you require Secretary Weinberger to decide whom he wishes to be his one representative. My own thought is that if you can allow a policy agency to have an alternate member this would permit Latham to be present vice Stilwell at those discussions focusing on resource concerns. I doubt, however, that Stilwell would go along with that. You will see from the list of members that the Department of Defense is already represented by some half dozen individuals. 25X1
- Executive Order 12065. Secretary Weinberger will be prepared to respond to your recent memo proposing compromise language in an effort to control technology loss. 25X1
